

NAWS Environmental Scan

This is an opportunity for the Central Atlantic Region to provide input up front, directly influencing the NAWS Strategic Plan by providing data they can consider as part of our environmental scan. This scan reflects NAW's best efforts to capture trends and issues— both within and outside of the Fellowship—that affect NA. The deadline for giving input on this survey is April 24th. There are three other ways to submit your area's input. You may call your delegate with this information, you may send a scanned copy of the survey via email to rd@car-na.org, you may hand in a paper copy at the April RSC or you complete the form online* at <http://tinyurl.com/NAWSscan>. (* Preferred method)

Email address _____

Please let us know which area you represent _____
